Did you know you're required to take a PCI questionnaire each year?

Compliance with the Payment Card Industry (PCI) Data Security Standard (DSS) is vital for all merchants who accept credit cards because nothing is more important than keeping your customers' card data secure. When you receive information about completing your annual PCI questionnaire in Compass and running and passing any required network vulnerability scans, please do so promptly. Remember, if you do not successfully complete your questionnaire and pass any required scans by the deadline, you will be charged a monthly fee.

If you have questions about your PCI questionnaire or network scan results, the PCI Help Desk is happy to help. They can be reached at 855-864-1732 from 7 a.m. to 7 p.m. Central, Monday-Friday.
