- A merchant account has been established, and is ready to accept transactions transmitted through your selected software program. The information below contains the merchant account data required for your PC software provider to complete the programming and set-up process. The vendor must use the below setup information.
- Your PC will have to have the error correction set to "off" to properly communicate.
- Please contact your software provider directly for assistance with the setup and software operation going forward. If you purchased software on your own, the help desk phone number should be located on the package information, or in the 'help' feature on your software.
